ABOUT US

International manufacturing, built on trust.

M&J Silkroad Trading LTD is a UK-based manufacturer and sourcing partner, operating our own factories and a trusted network of industry specialists across China. Our teams deliver precision manufacturing, materials sourcing, and tailored custom solutions to clients worldwide.

We bridge global manufacturing capability with British commercial reliability — offering direct factory pricing, rigorous quality control, and a single point of contact from quotation through to delivery.

From high-pressure pipe fittings and forged components to industrial materials and bespoke machined parts, every order is backed by the same commitment: quality guaranteed, every time.

CAPABILITIES

Our manufacturing

Full in-house capability — from raw-material heat treatment through CNC machining, forging, and final inspection. Every part traceable, every batch tested.

Heat-treatment furnaces

CNC machining lines

Precision turning

Quality inspection

Manufacturing facilities.

Over 40,000 m² of floor space across forging, forming, CNC machining, heat-treatment, and coating lines. Photographed on-site at our partner mills in Hebei Province.

Hot elbow forming

QUALITY & STANDARDS

Certified supply network.

Our partner mills and processing facilities are independently certified to international quality, environmental, and marine-grade standards. Every shipment is traceable to a certified source.

OUR COMMITMENT

Every order is backed by mill certificates, dimensional reports, and third-party inspection on request. We match material grade, heat number, and batch to your purchase order — so you can specify once and trust the paperwork.

PRODUCT RANGE

Pipe fittings & flanges

Seamless and welded pipe fittings plus forged flanges in carbon steel, stainless steel, nickel alloy, and duplex grades. Manufactured to ASME, DIN, and GB standards.

— PIPE FITTINGS

 <p>Butt-weld elbow 45° · 90° · 180°</p>	 <p>Equal tee Reducing available</p>	 <p>Reducer Concentric · eccentric</p>	 <p>Stub end Lap-joint type</p>
---	---	--	---

— FORGED FLANGES

 <p>Weld-neck PN6 – PN160</p>	 <p>Slip-on Carbon · stainless</p>	 <p>Blind Pressure rated</p>	 <p>Threaded Raised · flat face</p>
---	--	---	---

STANDARDS & MATERIALS

ASME B16.9 / B16.5 · DIN / EN 10253 · GB/T 12459

Carbon steel (A234 WPB) · Stainless 304 / 316L · Nickel alloy (Inconel 600/625, Hastelloy C276) · Duplex 2205

PRODUCT RANGE

High-pressure forgings & supports

High-integrity forged fittings for power, petrochemical, and process-industry applications. Engineered pipeline supports, clamps, and hangers supplied to customer specification.

— FORGED FITTINGS

Socket-weld tees

Carbon & alloy steel

Y-branch cross

High-pressure service

Forged reducer

Boiler & main-steam

— PIPELINE SUPPORTS & HANGERS

Pipe shoes & clamps

Power-plant grade

Pipe clamp assemblies

Structural steel

Hanger brackets

Custom fabrication

PRODUCT RANGE

Coated & insulated piping.

Anti-corrosion and thermal-insulation piping for district heating, oil & gas, and water utilities. Factory-applied 3LPE, FBE, and polyurethane-jacket systems supplied with matched fittings.

— COATED & JACKETED PIPE SYSTEMS

 <p>3LPE coated pipe DN50 – DN1200</p>	 <p>FBE / 2PE coated Oil & gas pipelines</p>	 <p>Insulated pipe District heating</p>	 <p>Insulated fittings Elbow · tee · reducer</p>
---	---	---	---

TYPICAL APPLICATIONS

Oil & gas transmission · District heating · Water & sewer utilities · Desalination · Chilled-water HVAC · Chemical process lines

— INDUSTRIES SERVED

Petroleum	Natural Gas	Chemical	Power
Shipbuilding	Water Treatment	Paper & Pulp	Nuclear

PRODUCT RANGE

Industrial materials & machining

Stocked in the UK for same-week dispatch. Custom machined parts in stainless steel, aluminium, and engineering plastics — CNC turning and milling to your drawing.

Silicone tubing

Food-grade & industrial

Clear translucent silicone tube, food-safe and industrial formulations. Sizes from 8 mm ID × 12 mm OD. Flexible, temperature-stable, reusable.

PTFE rod

White · 1 m lengths

High-purity PTFE round rod for gaskets, seals, insulators, and bearing surfaces. Chemically inert, low friction, wide temperature range.

EPDM / Neoprene foam

Self-adhesive seal tape

Closed-cell foam strip with sticky-backed seal tape. Weatherproof, compressible — ideal for enclosures, doors, and vibration damping.

Custom machining

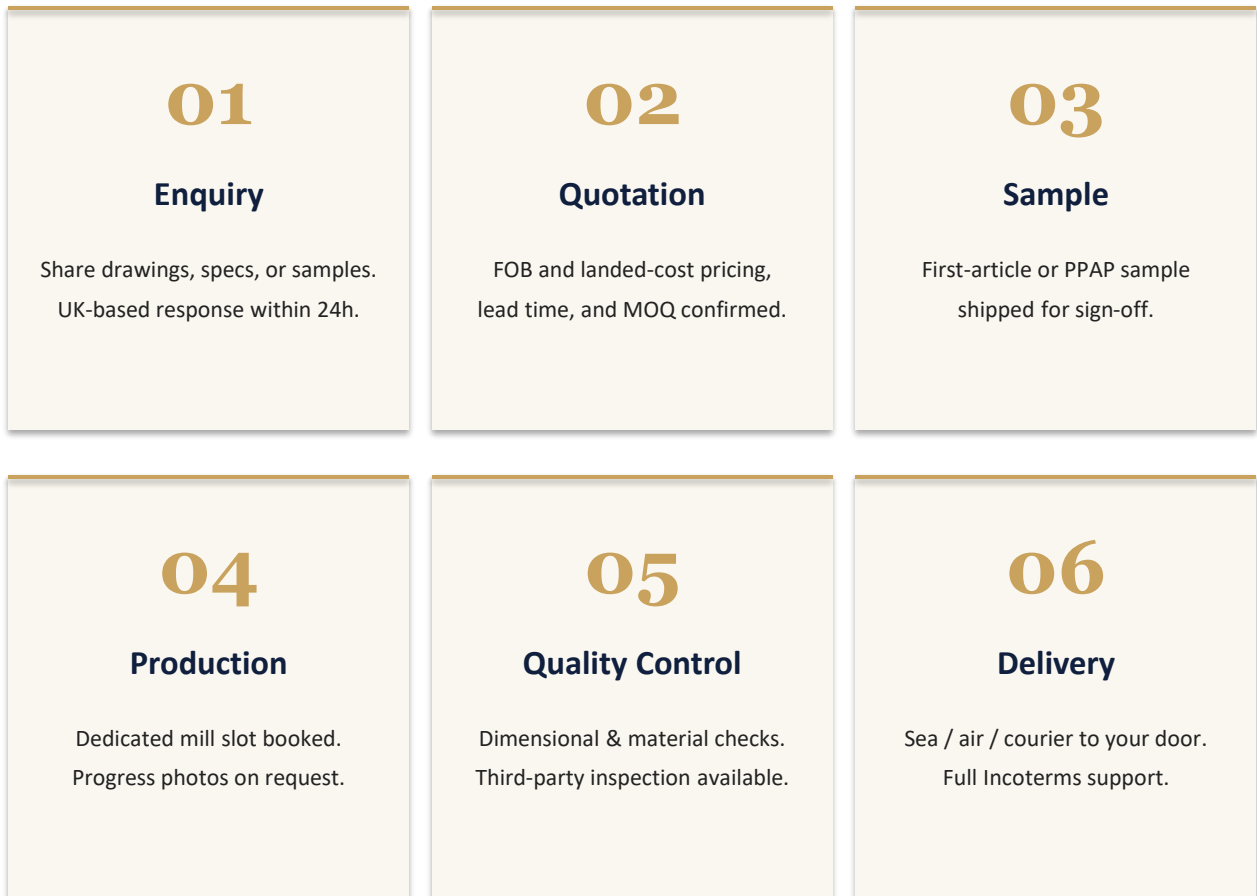

Stainless · Aluminium · Plastics

CNC turning and milling to your drawing. Short-run and production batches. Materials sourced directly from our own mills. Quotation within 24 hours.

HOW WE WORK

From enquiry to delivery.

A single UK point of contact guides every order through six defined stages — so you always know where your project stands and what comes next.

OUR PROMISE

24-hour quote turnaround. Sample before production. Inspection on every batch.
Direct factory pricing with a UK invoice and a UK-based point of contact.

Shipped DDP — no customs hassle.

We deliver DDP (Delivered Duty Paid) as standard. Duty and import clearance are handled on our side before shipment leaves — you receive the goods at your door with no customs paperwork, no surprise charges.

Air Freight

Fastest

10–15 days

For prototypes, urgent production shortfalls, and high-value finished parts.

Rail Freight

Best value

40 days

China–Europe rail direct to UK. Lower carbon, lower cost than air, faster than sea.

Sea Freight

Lowest cost

60 days

FCL and LCL options for large-volume orders. Best unit cost for bulk shipments.

DDP · DUTY CLEARED BEFORE SHIPMENT

No import duty to pay. No customs forms to file. No unexpected fees on arrival.

— PAYMENT & GUARANTEE

FLEXIBLE PAYMENT TERMS

Payment terms agreed per order — proforma invoice, staged milestone payments, or post-inspection balances for established buyers. Always open to discussion.

QUALITY GUARANTEE

If any issue is found on our side, we cover the cost of remanufacturing and re-delivery. You never pay twice for a fault that is ours.
